

Name	Talk
Pavol Hejný	AI agents with commitments
Jiří Jahn	Randomness and Stochastics in AI
Harry Potter	Generate spells with AI

Dear Mr. Hejný,

We are writing to inform you that your call for papers, "AI Agents with Commitments," has been selected for presentation at our Supercool Conference in London on September 8, 2025.

Travel and accommodation expenses will be covered.

We look forward to your presentation!

Yours sincerely,

John Smith

Supercool Conference Org Team

Prompt:

Write email to @Name as an organizer of the Supercool Conference in London on September 8, 2025, to inform them that their call for papers @Talk has been selected for presentation. Travel and accommodation expenses will be covered.

```

import { OpenAI } from 'openai';

const openai = new OpenAI({
  apiKey: process.env.OPENAI_API_KEY,
});

const response = await openai.chat.completions.create({
  model: 'gpt-4',
  messages: [
    {
      role: 'user',
      content: `Write email to ${name} as an organizer
of the Supercool Conference in London on
September 8, 2025, to inform them that their
call for papers ${talk} has been selected
for presentation.

Travel and accommodation expenses will be covered.`
    },
  ],
});

```

Outgoing email:

Dear Mr. Potter,

We are pleased to inform you that your call for papers, "Generate Spells with AI," has been selected for presentation at our Supercool Conference in London on September 8, 2025.

Be prepared for a magical experience as we cover your travel and accommodation expenses.

We look forward to your enchanting presentation!

Yours sincerely,

John Smith

Supercool Conference Org Team

Outgoing email:

I will write an email to Jiří Jahn.

Should I use a professional tone or a friendly tone?

Prompt:

Write email to @Name as an organizer of the Supercool Conference in London on September 8, 2025, to inform them that their call for papers @Talk has been selected for presentation. Travel and accommodation expenses will be covered.

- Write just the email, no other text.
- Use a professional tone.
- ...

```
import { countWords, countPages } from '@promptbook/utils';

for (let i = 0; i < RETRY_COUNT; i++) {
  const response = await openai.chat.completions.create({
    /* ... Prompt from previous slide ... */
  });
  const email = response.choices[0].message.content;

  if (!email.includes(name) || !email.includes(talk)) {
    continue;
  }

  if (/\\*+/.match(name)) {
    continue;
  }

  if (countWords(email) < 10 || countPages(email) > 2) {
    continue;
  }

  return email;
}
```

Book:

Write email to @Name as an organizer of the @Supercool Conference in London on September 8, 2025, to inform them that their call for papers @Talk has been selected for presentation. Travel and accommodation expenses will be covered.

🌟 Promptbook: AI apps in plain Language

Write AI applications using plain human language across multiple models and platforms.

npm package 0.95.0 quality ★★★★★ Snyk security monitored Build Status coverage unknown

issues 87 open

🌟 New Features

- 💡 VS Code support for .book files with syntax highlighting and IntelliSense
- 🐳 Official Docker image (hejny/promptbook) for seamless containerized usage
- 🔥 Native support for OpenAI o3-mini , GPT-4 and other leading LLMs
- 🔍 DeepSeek integration for advanced knowledge search

📦 Package @promptbook/utils

- Promptbooks are **divided into several** packages, all are published from **single monorepo**.
- This package @promptbook/utils is one part of the promptbook ecosystem.

To install this package, run:

```
# Install entire promptbook ecosystem
npm i ptbk

# Install just this package to save space
npm install @promptbook/utils
```

Utility functions used in the library, but also useful for individual use in pre and post-processing

Install

```
> npm i @promptbook/utils
```
